{ Andrei-Alexandru Paciurca };

[a dreamer]

Phone:
(+40) 748 376 161

Email:
andrewpaciurca@gmail.com

Website:
andreipaciurca.github.io

Address
Str. Saturn Nr. 2
Onesti, Bacau, Romania

Languages
Romanian (Native), English (B1)

Skills
Java, C/C++, Python, **SQL**, Oracle SQL, MySQL, Linux, Virtual Machines, **HTML**, **CSS**, JavaScript, **MatLab**, Excellent Time Management Skills, **Funny** 🤭

"01101000 01100101 01101100 01101100 01101111" – it means **"hello"** in binary code.

▸ First and foremost, I love writing code and getting my hands dirty with all sorts of devices and boards such as Arduino, Raspberry, Digital Signal Processors, Microcontrollers and so on. I can still remember the feeling of excitement my first 'Hello World!' program gave to me, my first successful Windows (Operating System) installation or my first Linux Server accessible only in my Local Area Connection.

▸ Throughout school, I latched on any new programming languages or technology I could learn, moving from 'Hello World' all the way to mobile development, Windows applications, designing and building websites or Image Processing and *Deep Learning* with **MATLAB** or Tensor Flow.

▸ There's certainly yet more to learn, yet more problems to solve, and yet more to build. And for this, I am very grateful.

Experience

[06 July 2020] – [15 September 2020]

Junior Developer: NFC-BASED DATA ACQUISITION
SC Continental Automotive Romania SRL

Education

[2017] – [2021]

"Gheorghe Asachi" Technical University of Iasi
Faculty of Automatic Control and Computer Engineering
Automatic Control and Applied Informatics

Activities & Passions

- This probably isn't surprising coming from an engineer, but I love experimenting with code 🧑‍💻.
- My favorite pastimes are jogging 🏃, hanging out with friends, and watching movies or TV series 😄
